

Frankenstein: Victor as The Monster

For this paper, you need to have the thesis that the real monster in *Frankenstein* is Victor. This is a character analysis paper. You are analyzing Victor and arguing that readers should see Victor as the real monster. There is evidence that can work against this argument, but for the sake of this short paper, please stay away from that evidence.

In a character analysis paper, we look at:

- What the character says.
- What the character thinks.
- What others say about the character.
- Character description.
- What the character does.

Find evidence in the text that supports the argument that Victor acts badly. Keep in mind the contrast between him and his family.

Don't be afraid to use the digital pdf version of the novel to search for passages.

This paper might end up being around 2 pages.
